

Holiday Shopping Project

Teachers:

Starting with the next page, copy pages front to back. This should create a book that you can fold in half and staple in the middle.

On slide 4 of this download, you'll need to put in the total you want your students to start with. Lower grades, start with a lower number (\$20-\$100). Upper grades, start with a higher number (\$500-\$100,000). You could even have tags with \$\$ amounts and have students draw out of a jar their holiday gift budget.

K-3: Keep prices with whole numbers. I have attached sheets you can use for students to “shop” with.

4th-6th: Have kids use holiday gift shopping magazines to shop and use to the listed price.

Holiday Shopping Project

Name _____

Date _____

Show your work here.

Let's see just how much you spent on each person and the total amount you've spent to see how much money you have left.

\$ Remaining		

The holiday season is upon us and it's time to start your shopping. This project requires you to shop for **9** people/pets with a total budget of \$! Each person must receive between 2-5 presents.

Use this booklet to record your purchases and keep track of how much money you have left. You may use whichever strategies work best for you, but you must show your work.

Happy Shopping!

List the people/pets below for whom you've decided to purchase presents:

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____
7. _____
8. _____
9. _____

Person you're shopping for _____.

Fill in the table with the 2-5 presents you chose for this person.
